

## History of Mumma Bears

In 2018, a few of us Mumma Bears sat around a campfire in Central Ontario discussing the increasing perversion, masking itself as learning, arising in the school system. SOGI (Sexual Orientation and Gender Ideology) teaches boys that they can be girls, and vice versa. Even government and mainstream political parties were silent in the face of this agenda. We decided we HAD to stand and fight for our cubs.

# 10 AREAS TO PROTECT YOUR KIDS

## 1. YOUR HOME

Do you know what your children are reading? Are you safeguarding your children in your home? Has pornography crept in to your home? Does your child know how to protect themselves from predators / bullying? Do you know what signs to look for if your tweens/teenagers are victims of trafficking? Do you know how your grandparents lived and thrived?

## 2. PLACE OF WORSHIP

Do you know that our religious freedom is under threat? Does your place of worship stand up for parental rights and your child's safety? Is your congregation protecting your children? Have you taken all measures to ensure your children are safe with educators and youth leaders?

## 3. EDUCATION

What are your children being taught at school? You have every right to know. Are there pornographic books on the shelves in your school and public libraries? Are the schools deliberately concealing information about your children? Are you aware of the various alternative school options available to you? Have you seen the sexualized onboarding required at some Canadian Universities?

## 4. GOVERNMENT / LAW

Does your government representative stand for Faith, Family, & Freedom? Do you know what your tax dollars fund – like life altering surgeries and treatments to change gender, assisted suicides and termination of unborn babies, right up to full term? Can you stand up to tyrannical government impositions? What laws protect your children from predators AND protect parents' rights to raise your own children? Do you understand the constitution and its role in ensuring our rights and freedoms?

## 5. BUSINESS

Do you realize how much influence you can have by making good product purchases? Are the products you purchase made by children in impoverished nations working for free? Where can you make a difference when you spend your money? Do you know which companies support the sexualization of your children?

## 6. HEALTH / MEDICAL

Do you know your rights when it comes to religious freedom of medical choice? What drugs are being used in your homes? Do you support MAID (Medical Assistance In Dying - assisted suicide), for depressed or at risk youth? Are your children being prescribed drugs which will forever alter their ability to have children? What questions can you ask your doctor regarding risks and side effects when seeking treatment for your family?

## 7. MEDIA

Do you know what shows are indoctrinating your children? What strategies are behind the media subscriptions you have? Who is paying for the news you listen to? What sexualized message is that cartoon or YouTuber sending to your toddler/youth/tween/teen?

## 8. SPORTS

Do we want our girls to compete against boys? Should your child be in the same bathroom/locker room with the member of the opposite sex? Are your kids' coaches and leaders trustworthy? Do you know the true values held by sports heroes? Do they support protecting our children, or grooming them?

## 9. ENTERTAINMENT

Do you listen to the lyrics of the music your children listen to? Do you purchase tickets to shows that spew indoctrination? Do you know who is speaking into the lives of your children? Who are your children idolizing?

## 10. TECHNOLOGY

Do you analyze video games and their content for perverted messages and values? Do you understand their devices, and know all the contacts on your kids' phones? Are your children protected from groomers on ALL their devices and Apps? Do your children know how to keep their information safe?
